

2K PU ADHESIVE

ET/PU-9050, 50ml black

Product

2K PU fast curing adhesive for structural bonding.

Substrates

Thermosetting and thermoplastic materials, steel, aluminium, concrete wood and glass.

Surface Preparation

Clean, dry and degrease the surface. Pre treat metal surfaces with anti-corrosive primer if needed.

Application Conditions

+10°C +30°C

Hardness shore

A 80 DIN 53505

Elongation at break

15%

Specific weight

1,08gr/cc (Part A + Part B)

Drying

Working time: 60sec
Bouding time: 5min
Complete curing: 4hours

Shelf life

12 months
